(Amendment) Regulations (Northern Ireland) 2014**

*Made* - - - - *18 November 2014*

*Coming into operation* *10 December 2014*

The Department of Enterprise, Trade and Investment, being a Department designated<sup>(1)</sup> for the purposes of section 2(2) of the European Communities Act 1972<sup>(2)</sup> in relation to measures relating to regulation of the electricity sector, makes the following Regulations in exercise of the powers conferred upon it by that section as read with paragraph 1A of Schedule 2 to the 1972 Act.

## EXPLANATORY NOTE

*(This note is not part of the Regulations)*

These Regulations transpose Article 14(10) of, and Annexes II and X to, Directive 2012/27/EU of the European Parliament and of the Council of 25th October 2012 on energy efficiency, amending Directives [2009/125/EC](#) and [2010/30/EU](#) and repealing Directives [2004/8/EC](#) and [2006/32/EC](#) (“the Directive”) (OJ No L 315, 14.11.2012, p1).

Regulation 2 amends the Guarantees of Origin of Electricity Produced from High-efficiency Cogeneration Regulations (Northern Ireland) 2008 (“the Cogeneration Regulations”) (S.R. 2008/287). These amendments are necessary because the Directive repeals Directive [2004/8/EC](#) of the European Parliament and of the Council on the promotion of cogeneration based on a useful heat demand in the internal energy market and amending Directive [92/42/EEC](#) (“the Cogeneration Directive”) (OJ No L 52, 21.2.2004, p50). Article 14(10) and Annexes II and X of the Directive replace the requirements of Article 5 of the Cogeneration Directive which the Cogeneration Regulations transposed. Regulation 2 removes reference to the Cogeneration Directive and replaces them with reference to the relevant parts of the Directive. These concern the requirements for the issue of a guarantee of origin certifying that the electricity in respect of which the certificate is issued is electricity produced from high-efficiency cogeneration (electricity produced from cogeneration meaning electricity produced from combined heat and power).
