

## **Freedom of Information Act 2000 (FOIA)**

### **Decision notice**

**Date:** 8 July 2015

**Public Authority:** Newcastle Under Lyme Borough Council

**Address:** Civic Offices  
Merrial Street  
Newcastle Under Lyme  
ST5 2AG

#### **Decision (including any steps ordered)**

---

1. The complainant has requested information from Newcastle Under Lyme Borough Council (the council) relating to a specified business premises. The council has responded to the request, but the complainant requested a decision notice.
2. The Commissioner's decision is that the council has complied with section 10 of the FOIA as the response was provided within 20 working days.
3. As there has been no breach of the FOIA, the Commissioner does not require the council to take any steps.

#### **Request and response**

---

4. On 16 April 2015, the complainant wrote to the council and requested information in the following terms:

*"Please provide a copy of the actual grant of planning permission by your Council to [named individual for the upstairs of [specified address]] granting planning to be used as a [specified business type] premises. Please also explain why the decision to grant that planning permission was delegated by the Council to a Council delegated officer and why the decision did not go before a Council Planning Committee to decide not least given that the premises (in a residential street and area) had been used to operate a business from without the requisite planning consent being obtained beforehand"*

5. The council responded on 27 April 2015 under the reference 4997. The response directed the complainant to ask for an internal review if he was unhappy with the response.

### **Scope of the case**

---

6. The complainant contacted the Commissioner about this request 10 June 2015. He alleged that the council had not yet responded to his request and asked the Commissioner to serve a formal decision notice to record the alleged non-compliance.

### **Reasons for decision**

---

7. Section 10(1) of the FOIA states that a public authority must respond to a request promptly and "no later than the twentieth working day following the date of receipt".
8. The Commissioner is in possession of the council's response to the complainant dated 27 April 2015. He finds that this response was provided to the complainant within the statutory time frame of 20 working days.
9. The Commissioner's decision therefore is that the council has dealt with the request for information in accordance with the FOIA. It has not breached section 10(1) of the FOIA as alleged by the complainant as response to the request was provided within the statutory timeframe of 20 working days.
10. The Commissioner notes that the complainant stipulated to the council that he will only read correspondence sent to him by solicitors at the council, and that:

*"Since 2014 I have repeatedly stated in my communications to the Council that any communications sent to me by the Council should come from the Council Solicitors I named and I therefore made it clear that any communications from any other such persons from the Council was unsolicited and unwanted; therefore any subsequent communications that were sent to me by any other persons from the Council have amounted to harassment."*

The Commissioner would like to make it clear that the FOIA does not provide for requesters to demand who will respond to their request. It is clear to the Commissioner that the response issued in this case came

from the council, and is therefore a valid response for the purposes of the FOIA.

11. The Commissioner notes that if the complainant is now dissatisfied with the council's response, the correct course of action is for him to request that the council conducts an internal review.

## **Other Matters**

---

12. Section 50(1) of the FOIA requires the Commissioner to make a decision in relation to complaints he receives about public authorities' compliance with the FOIA when dealing with requests for information. However, under section 50(2)(c) the Commissioner has the right to refuse to make a decision if it appears to him that a particular application is frivolous or vexatious.
13. This decision notice now represents one of five<sup>1</sup> in which the complainant has demanded that the Commissioner serve a decision notice on the council to record non-compliance with section 10 of the FOIA, when the council has in fact responded in time, and has therefore complied with section 10.
14. As noted above, it appears to the Commissioner that the complainant is refusing to accept or read correspondence that is not sent to him by council solicitors. The council has a single point of contact in operation for the complainant. She has been responding to the requests on behalf of the council, but as she is not a solicitor, it appears that the complainant is acting as though he has not received any correspondence from her.
15. In addition to this, the complainant alleges that he has not received copies of the previous decision notices that have been served in relation to his complaints. Again, the Commissioner suspects that this is due to the fact that the copy decision notices were not sent by solicitors, but by the Commissioner's case officers in the casework department, as is standard procedure.
16. The Commissioner therefore believes this represents a frivolous request for a decision notice. In future the Commissioner will consider whether it is appropriate for him to exercise his discretion under section 50(2)(c) to

refuse to make a decision in relation to any complaint about a request of a similar nature from the complainant.
