5A.—(1) Subject to the following provisions of these Regulations, a vehicle may be driven on a relevant length of the actively managed hard shoulder.

(2) The relevant length of the actively managed hard shoulder shall be treated for the purposes of these Regulations as a lane of the carriageway.

(3) Accordingly where paragraph (2) applies, references in these Regulations—

(a) to a carriageway shall be treated as including references to the relevant length of the actively managed hard shoulder; and

(b) to a hard shoulder, except in regulation 3(1), shall be treated as excluding references to the relevant length of the actively managed hard shoulder.

(4) For the purposes of this regulation “relevant length” in relation to the actively managed hard shoulder means a length of the actively managed hard shoulder that—

(a) begins immediately after an overhead gantry on which directly above the actively managed hard shoulder there is displayed a traffic sign of the type shown in diagram 670 in Schedule 2 to the Traffic Signs Regulations 2002 indicating that a speed limit other than the national speed limit applies to the actively managed hard shoulder; and

(b) ends immediately before an overhead gantry on which directly above the actively managed hard shoulder there is displayed a traffic sign of the type shown in diagram 5003.1 in Schedule 10, or 6031.1 in Schedule 11, to the Traffic Signs Regulations 2002.”.

(b) the vehicle has passed a speed limit sign; and

(c) the vehicle has not subsequently passed—

(i) another speed limit sign indicating a different speed limit; or

(ii) a traffic sign which indicates that the national speed limit is in force.

(3) In relation to a vehicle, the speed limit indicated by a speed limit sign is the speed shown at the time the vehicle passes the sign, or, if higher, the speed limit shown by the sign ten seconds before the vehicle passed the sign.

(4) For the purpose of this regulation a speed limit sign is to be taken as not indicating any speed limit if, ten seconds before the vehicle passed it, the sign had indicated no speed limit or that the national speed limit was in force.

(5) In this regulation—

“national speed limit” has the meaning given by regulation 5(2) of the 2002 Regulations and a traffic sign which indicates that the national speed limit is in force means a traffic sign of the type shown in diagram 671 in Schedule 2 to the 2002 Regulations which is—

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations introduce variable speed limits to the M6 Motorway from junctions 5 to 8 and on associated slip roads and linking carriageways.

The Regulations also modify the way that the Motorway Traffic (England and Wales) Regulations 1982 (“the 1982 Regulations”) apply to the carriageways of the M6 motorway between junctions 5 and 8 and create the concept of an ‘actively managed hard shoulder’; this is a hard shoulder which, in certain circumstances, may be driven on.

Regulation 3 provides for the 1982 Regulations to apply as if a new regulation 5A were inserted, which provides that the hard shoulder of a relevant road may be used as a carriageway where a speed limit sign is displayed above the hard shoulder.

Regulation 3 also provides for the 1982 Regulations to apply as if the concept of the ‘emergency refuge area’ were introduced. Where a hard shoulder is actively managed, this emergency refuge area has the same function as a hard shoulder.

Regulation 4 provides for variable speed limits to have effect on the roads specified in Schedule 2. Where variable speed limit signs are in operation a vehicle may not be driven at a speed above the maximum indicated by each speed limit sign passed by the vehicle until it passes a sign indicating that the national speed limit applies or the vehicle leaves the roads covered by the regulation. Where a speed limit changes less than 10 seconds before a vehicle passes the sign and the sign had indicated a higher speed limit, the regulation allows the driver to proceed at a speed up to the maximum applicable before the change. Where the speed limit sign indicates a speed limit when it is passed by a vehicle but less than 10 seconds previously it was either giving no indication of a speed limit or that the national speed limit applied, the sign is to be taken as giving no indication of a speed limit to the vehicle passing it.

Contravention of the Regulations is an offence under section 17(4) of the Road Traffic Regulation Act 1984.
