- (i) any features of the project or measures envisaged to avoid, prevent or reduce, and, if possible, offset any likely significant adverse effects of the project on the environment.

(3) For the purposes of sub-paragraph (2), an objection, representation, report or part of a report is “relevant” if it concerns the likely significant effects of the project on the environment.

(4) Following the consideration required by sub-paragraph (2), the Secretary of State must reach a reasoned conclusion about the likely significant effects of the project on the environment.

(5) The Secretary of State must obtain such expert advice as appears to the Secretary of State to be necessary for the purposes of considering the environmental statement.”

(18) For paragraph 19(27), substitute—

“19.—(1) The Secretary of State must—

- (a) in the case of an EIA application, consider the matters specified in sub-paragraph (2) and, if relevant, sub-paragraph (5);
- (b) in the case of any other application, consider the matters specified in sub-paragraph (4) and, if relevant, sub-paragraph (5).

(2) The matters to be considered in respect of an EIA application are—

- (b) to the extent that they were not required to be taken into account in reaching the reasoned conclusion—
 - (i) any objections made and not withdrawn;
 - (ii) the report of any person who held an inquiry or of any person appointed for the purpose of hearing an objector;

 - (i) whether it is necessary to modify the order to include a monitoring measure, and
 - (ii) whether or not to include provision in the order for potential remedial action.

(3) For the purpose of determining whether it is appropriate to impose a monitoring measure, the Secretary of State must have regard to any existing monitoring arrangements which are carried out in accordance with an obligation under the law of any part of the United Kingdom (other than a provision implementing the EIA Directive).

(4) The matters to be considered in respect of an application mentioned in sub-paragraph (1)(b) are—

- (a) any objections made and not withdrawn, and
- (b) the report of any person who held an inquiry or of any person appointed for the purpose of hearing an objector.

(6) Following the consideration required by sub-paragraph (1), the Secretary of State must decide—

19A.—(1) The Secretary of State must make a decision under paragraph 19(6) in respect of an EIA application only if satisfied that the reasoned conclusion relating to that application is up to date.

(2) A reasoned conclusion is to be taken to be up to date if, in the opinion of the Secretary of State, it addresses the likely significant effects of the project on the environment.

(3) The Secretary of State may decide to modify an order to include a monitoring measure only if satisfied that the type of parameters which will be required to be monitored and the duration of such monitoring are proportionate having regard to—

- (a) the nature, location and size of the project, and
- (b) the significance of the effects of the project on the environment.

19B. The Secretary of State must make the decision required by paragraph 19(6) in respect of an EIA application within a reasonable period of time (having regard to the nature and complexity of the application and the project to which it relates) beginning with the day on which the Secretary of State has all the information needed to make that decision.”

(19) For paragraph 20(28), substitute—

(28) Paragraph 20 was amended by regulation 11 of [S.I. 2009/269](#).

“20.—(1) This paragraph applies where the Secretary of State makes a decision under paragraph 19(6) in relation to an EIA application.

- (f) a summary of any objections—
 - (i) made about the likely significant adverse effects of the project on the environment , and
 - (ii) not withdrawn,
- (g) a summary of any representations made under paragraph 10 or 10A about the likely significant adverse effects of the project on the environment,
- (h) a copy of the reasoned conclusion,
- (i) a description of any features of the project or measures envisaged to avoid, prevent or reduce and, if possible, offset, any likely significant adverse effects of the project on the environment,
- (j) a summary of how the information mentioned above (and, in particular, any opinion given under paragraph 16(5)(b) or the results of any consultations under paragraph 16(6)(a)) have been taken into account in making the decision, and
- (k) a statement regarding the right to challenge the validity of the decision and the procedure for doing so.

(4) A failure to make the specified information available throughout the period specified in sub-paragraph (2)(b) is to be disregarded if—

- (a) the information was available on the official website for part of that period, and
- (b) the failure is wholly attributable to circumstances that it would not be reasonable to expect the Secretary of State to prevent or avoid.

- (20) After paragraph 20 insert—

“Defence projects: exemption from environmental impact assessment

- 20A.**—(1) The Secretary of State may direct that an environmental impact assessment is not required for a project if satisfied that—
- (a) the sole purpose of the project is national defence, and
 - (b) carrying out the assessment would have an adverse effect on the fulfilment of that purpose.
- (2) The Secretary of State must, as soon as reasonably practicable, send a copy of a direction given under sub-paragraph (1)—
- (a) to the Scottish Ministers, if the application for a harbour revision order authorising the project is required to be made to the Scottish Ministers;
 - (b) to the Welsh Ministers, if the application for a harbour revision order authorising the project is required to be made to the Welsh Ministers;

Civil emergencies: exemption from environmental impact assessment

- 20B.** The Secretary of State may direct that an environmental impact assessment is not required for a project if satisfied that—
- (a) the sole purpose of the project is the response to a civil emergency, and
 - (b) carrying out the assessment would have an adverse effect on the fulfilment of that purpose.

Exemption from environmental impact assessment in exceptional circumstances

- 20C.**—(1) The Secretary of State may direct that an environmental impact assessment is not required for a project if satisfied that—
- (a) it is appropriate to do so by reason of exceptional circumstances,
 - (b) carrying out the assessment would have an adverse effect on the fulfilment of the purpose of the project,
 - (c) the objectives of the EIA Directive will be met even though the assessment is not carried out, and
 - (d) the project is unlikely to have significant effects on the environment in another EEA State.

(2) Before giving a direction under sub-paragraph (1), the Secretary of State must consider whether another form of assessment of the effects of the project on the environment would be appropriate.

(3) The Secretary of State must—

- (a) as soon as reasonably practicable, make a copy of any direction given and a statement of the reasons for which it is given available for inspection on an official website,
- (b) publish the results of any other assessment considered appropriate for the purposes of sub-paragraph (2), and
- (c) keep the copy of the direction and the results (if any) available on the website throughout the period of three months beginning with the day on which the information is first made available on the website in accordance with this paragraph.

(4) A failure to make information available throughout the period specified in sub-paragraph (3)(c) is to be disregarded if—

- (a) the information was available on the official website for part of that period, and
- (b) the failure is wholly attributable to circumstances that it would not be reasonable to expect the Secretary of State to prevent or avoid.

(4) If the Secretary of State gives a direction under sub-paragraph (1), paragraph 19 applies in relation to the relevant application as if the matters listed in sub-paragraph (4) of that paragraph included any results published under sub-paragraph (3)(b) of this paragraph.

Deferral of environmental impact assessment: direction and effect of direction

20D.—(1) The Secretary of State may give a deferral direction in respect of a project which requires an environmental impact assessment if satisfied that—

- (b) the assessment satisfies or will satisfy the requirements of Article 1(2)(g)(i) to (iv) of the EIA Directive (definition of environmental impact assessment) in respect of the project.

(2) In this paragraph, “consenting authority”, in relation to a project or an activity, means an authority (including the Secretary of State) whose consent to, or authority for, the project or the activity is required under an enactment (other than this Act).

(3) The Secretary of State must—

- (a) as soon as reasonably practicable, make a copy of any deferral direction given and a statement of the reasons for which it is given available on an official website, and
- (b) keep the copy of the direction and statement available throughout the period required to ensure the effective participation of the public in the environmental impact assessment.

(4) A failure to make a copy of a deferral direction or statement available throughout the period specified in sub-paragraph (3)(b) is to be disregarded if—

- (a) the copy was available on the official website for part of that period, and
- (b) the failure is wholly attributable to circumstances that it would not be reasonable to expect the Secretary of State to prevent or avoid.

(5) The effect of a deferral direction is set out in paragraphs 20E to 20G.

20E.—(1) If a deferral direction is given in respect of a project (referred to in this Part as a “deferred project”), the following provisions of this Part of this Schedule do not apply in relation to an application for a harbour revision order authorising the deferred project—

- (g) paragraph 16;
- (h) paragraph 18A;
- (i) paragraphs 19A and 19B.

(2) Paragraph 19 applies to an application for a harbour revision order authorising a deferred project but as if—

- (a) the matters the Secretary of State is required to consider under sub-paragraph (1) were the specified matters, and
- (b) the reference to paragraph 19A in sub-paragraph (7) were a reference to paragraph 20F(1).

(3) The specified matters are—

- (a) the conclusion on the significant effects of the deferred project on the environment reached by the consenting authority following the assessment mentioned in paragraph 20D(1)(a);
- (b) to the extent they were not taken into account for the purposes of that conclusion, any objections made and not withdrawn;

 - (iii) any measures considered appropriate by the consenting authority for the purpose of monitoring the significant adverse effects of the deferred project on the environment;
- (f) if the Secretary of State is minded to make the order applied for, whether monitoring of the significant adverse effects of the deferred project on the environment is appropriate, and if so—
 - (i) whether it is necessary to modify the order to include a monitoring measure, and
 - (ii) whether to include provision in the order for potential remedial action;

(g) if the application relates to a deferred project which is to be carried out in Scotland, any written representations submitted to the Scottish Ministers by the applicant in elaboration of the application or by an objector in elaboration of an objection.

(4) For the purpose of determining whether it is appropriate to impose a monitoring measure, the Secretary of State must have regard to any existing monitoring arrangements which are carried out in accordance with an obligation under the law of any part of the United Kingdom (other than a provision implementing the EIA Directive).

20F.—(1) The Secretary of State may make an order authorising a deferred project only if satisfied that—

- (a) the conclusion mentioned in paragraph 20E(3)(a) is up to date, and
- (b) making the order in the form of the draft submitted with the application, or with modifications, would be compatible with the decision made by the consenting authority following the assessment mentioned in paragraph 20D(1)(b).

(2) A conclusion is to be taken to be up to date for the purposes of sub-paragraph (1)(a) if, in the opinion of the Secretary of State, it addresses the likely significant effects of the project on the environment.

(3) The Secretary State must consult the consenting authority if satisfied that it is appropriate to do so for the purposes of sub-paragraph (1)(b).

20G. The Secretary of State must make the decision required by paragraph 19(6) in respect of an application for an order authorising a deferred project within a reasonable period of time (having regard to the nature and complexity of the application and the project to which it relates) beginning with the day on which the Secretary of State has all the information needed to make that decision.”

EXPLANATORY NOTE

(This note is not part of the Regulations)

These Regulations implement [Directive 2014/52/EU](#) of the European Parliament and of the Council (O.J. No. L 124, 25.4.2014, p. 1-18) amending [Directive 2011/92/EU](#) on the assessment of the effects of certain public and private projects on the environment (O.J. No. L 26, 28.1.2012, p. 1-21); they relate specifically to harbour works (in England and Wales and Scotland), the construction or improvement of highways (in England and Wales) and certain transport related works (in England and Wales).

Schedule 1 amends the Harbours Act [1964 \(c. 40\)](#) which makes provision for harbour revision and empowerment orders.

Schedule 2 amends Part 5A of the Highways Act [1980 \(c. 66\)](#) to provide for procedures governing the environmental impact assessment of projects for the construction or improvement of highways by the project authority; in England this is Highways England or the Secretary of State and in Wales the Welsh Ministers, which are respectively the highway authority. The relevant highways are for the most part trunk roads.

Schedules 3 and 4 amend the Transport and Works Act [1992 \(c. 42\)](#) and the Transport and Works (Applications and Objections Procedure) (England and Wales) Rules 2006 ([S.I. 2006/1466](#)) which make provision for orders authorising transport-related works in England and Wales.

In summary, these Regulations make provision governing:

- the circumstances in which a project may be exempt from the environmental impact assessment process (e.g. national defence or civil emergencies);
- the introduction of coordinated procedures for projects in respect of which there are other related assessments (e.g. habitats regulations);
- the list of environmental factors to be considered as part of the environmental impact assessment procedure;
- the information to be provided to inform a screening decision and the criteria to be applied when making a screening decision;
- the way in which an environmental statement is to be prepared, including an amendment to the information to be included in it, the introduction of a requirement that it be based upon

a scoping opinion (where one has been obtained) and a requirement that it be prepared by a competent expert;

the procedure not applying to projects where a separate assessment of the effects of the project on the environment has been, is or will be carried, out by another public authority; and

the publication of decisions in respect of projects which are subject to the environmental impact assessment process.

Schedule 5 makes provision for the Secretary of State to direct that an environmental impact assessment with respect to certain works and projects in Scotland and Northern Ireland, which have national defence as their sole purpose, is not required.

Schedule 6 makes provision for transitional arrangements with respect to the amendments made by these Regulations.

These Regulations were notified to the European Commission in accordance with Article 2 of [Directive 2014/52/EU](#).

An Explanatory Memorandum and a transposition note are available with these Regulations on www.legislation.gov.uk. Copies have also been placed in the Libraries of both Houses of Parliament.

A full regulatory impact assessment has not been produced for this instrument as no impact on the private or voluntary sectors is foreseen.
