EXPLANATORY NOTE

(This note is not part of the Order)

This Order is made following a review under section 148 (revaluation of earnings factors) of the Social Security Administration Act 1992 (c. 5).

This Order applies to the earnings factors relevant to the calculation of additional pension in any long term benefit (in practice, now relevant only to the calculation of inherited additional pension), or of any guaranteed minimum pension or to any other calculation required under Part 3 of the Pension Schemes Act 1993 (c. 48). The Order provides that these earnings factors are to be increased for the tax years specified in the Schedule to the Order by the percentage of their amount specified in that Schedule.

The percentages specified in this Order for the tax years from and including 2000 – 2001 are also used in the revaluing of state scheme pension debits and credits in accordance with sections 13 and 14 of, and paragraphs 2(6) of Schedule 8 and 2(6) of Schedule 10 to, the Pensions Act 2014 (c. 19). The percentage specified for 2015 – 2016 is used to increase flat rate accrual amounts of additional pension in accordance with paragraphs 4(2), 8(4) and 9(4) of Schedule 4B to the Social Security Contributions and Benefits Act 1992 (c. 4).

The percentage specified for the tax year 2016 – 2017 is 2.6%. The percentages for earlier tax years have been increased so that the earnings factors for those years are revalued at 2016 – 2017 earning levels. For the tax year 2016 – 2017, the percentage specified in this Order is only relevant for the revaluation of state scheme debits and credits. This is because accruals of additional pension ended with the introduction of the new state pension on 6th April 2016, and it is not necessary to specify a percentage for calculations under Part 3 of the Pension Schemes Act 1993 for tax years after 2015 – 2016.

This Order also provides for rounding fractional amounts for earnings factors relevant to the calculation of the additional pension in the rate of any long-term benefit. By virtue of section 23(2) of the Social Security Contributions and Benefits Act 1992, rounding is not required for the purpose of the calculation of any guaranteed minimum pension.

A full impact assessment has not been produced for this instrument as it has no new impact on business or civil society organisations.
