You may use this electricity licence application form to make an application for the following electricity licences:

An electricity supply licence allows the licensee to supply electricity to premises. An electricity supply licence may authorise the holder to supply domestic and non-domestic premises, or to non-domestic premises only.

An electricity generation licence allows the licensee to generate electricity for the purpose of giving a supply to any premises or enabling a supply to be given.

An electricity distribution licence allows the licensee to distribute electricity for the purpose of enabling a supply to be given.

An electricity transmission licence allows the licensee to participate in the transmission of electricity for the purpose of enabling a supply to be given.
